Figure 1 shows article influence scores and impact factors of journals in sports medicine and science with impact factors of at least 1.0.

**Impact Factors and Article Influence Scores for Journals**

influence in a journal, a journal's influence score is calculated by dividing the journal's impact factor by the journal's average article length. The impact factor is the average number of citations per article published in the journal over a three-year period. The average article length is the average number of words per article published in the journal over the same period.

ASSE 0307-013 The unsafe behaviors were used to help develop behavioral checklists.
