

intelligent agents and multi pdf

Intelligent agents are often described schematically as an abstract functional system similar to a computer program. For this reason, intelligent agents are sometimes called abstract intelligent agents (AIA) [citation needed] to distinguish them from their real world implementations as computer systems, biological systems, or organizations.

Fujitsu presents its ScanSnap S510M duplex scanner for the Macintosh. This scanner allows for double-sided scanning of up to 18 ppm and is optimized to scan documents directly to PDF or Microsoft applications with one touch. Also includes the CardMinder system for scanning and storing business card information.
