Linguistic typology and child language research 215 the starting point “ that is, we seek to determine the child’s initial presuppositions towards particular sorts of formal and conceptual structures.

**Interfaces between linguistic typology and child language**

However, the new words that enter a language as a result of a historical event will always have in one way or the other some association with that event. In this way, history enriches the language while language in turn preserves that history in its vocabulary. Therefore, language and history are mutually dependent on one another.
