Introductory Statistics and Analytics: A Resampling

Looking over the original exchange it does not look like this code would even work for a logit for which it was originally needed. However, I will post it on github and perhaps others will find the concept useful enough to make revisions (unlikely).

Econometrics By Simulation: Export R Results Tables to

The first edition of Basic Econometrics was published thirty years ago. Over the years, there have been important developments in the theory and practice of econometrics. In each of the subsequent editions, I have tried to incorporate the major

Basic Econometrics 5th Edition (by Damodar N. Gujarati

The clearest way to examine a regular time series manually is with a line chart such as the one shown for tuberculosis in the United States, made with a spreadsheet program.

Time series - Wikipedia

Box and Cox (1964) developed the transformation. Estimation of any Box-Cox parameters is by maximum likelihood. Box and Cox (1964) offered an example in which the data had the form of survival times but the underlying biological structure was of hazard rates, and the transformation identified this.

Glossary of research economics - econterms

In statistics, resampling is any of a variety of methods for doing one of the following: Estimating the precision of sample statistics (medians, variances, percentiles) by using subsets of available data (jackknifing) or drawing randomly with replacement from a set of data points (bootstrapping)

Resampling (statistics) - Wikipedia

Project Modeling in Excel training course. The AIF Project Modeling in Excel training course teaches participants to create and understand project finance models.
