Until the 19th century, linear algebra was introduced through systems of linear equations and matrices. In modern mathematics, the presentation through vector spaces is generally preferred, since it is more synthetic, more general (not limited to the finite-dimensional case), and conceptually simpler, although more abstract.

Psychotherapy is a powerful and transformative process. I love being on that journey with my clients, helping  
them to understand themselves more deeply and respond to life's challenges with more awareness.
