The following outline is provided as an overview of and topical guide to physics: Physics "natural science

that involves the study of matter and its motion through spacetime, along with related concepts such as energy and force. More broadly, it is the general analysis of nature, conducted in order to understand how the universe behaves.

### **Outline of physics - Wikipedia**

Physics is the most fundamental of all sciences. At WPI, we encourage the curiosity physicists have about how the world works by giving them the resources and the tools to further the study of the nature and properties of matter and energy.
