Physics became a separate science when early modern Europeans used experimental and quantitative methods to discover what are now considered to be the laws of physics.

Physics - Wikipedia

In chapter 3, Aristotle presents his theory of the four causes (material, efficient, formal, and final). Material cause explains what something is made of (for example, the wood of a house), formal cause explains the form which a thing follows to become that thing (the plans of an architect to build a house), efficient cause is the actual ...

Physics is the most fundamental of all sciences. At WPI, we encourage the curiosity physicists have about
how the world works by giving them the resources and the tools to further the study of the nature and
properties of matter and energy.
