We propose a more complete conceptual framework for analysis of SME credit availability issues. In this framework, lending technologies are the key conduit through which government policies and national financial structures affect credit availability.

A more complete conceptual framework for SME finance

Credit borrower fund with specified term of repayment. When there are in sufficient accumulated saving to finance a business and when the return on borrowed funds exceed the interest rate charged on the loan it makes sense to borrow rather than postponed the business activity until sufficient saving can be accumulated.
