Oracle Identity Management is a complete and integrated, next-generation identity management platform that provides breakthrough scalability, enables organizations to achieve rapid compliance with regulatory mandates, secures sensitive applications and data whether they are hosted on-premises or in

### **Oracle Identity Management Documentation**

The Go programming language is an open source project to make programmers more productive. Go is expressive, concise, clean, and efficient. Its concurrency mechanisms make it easy to write programs that get the most out of multicore and networked machines, while its novel type system enables flexible and modular program construction.
