Business models are perhaps the most discussed and least understood aspect of the web. There is so much talk about how the web changes traditional business models.

Business Models on the Web | Professor Michael Rappa

Software quality according to Feigenbaum. Quality is a customer determination, not an engineer's determination, not a marketing determination, nor a general management determination.

Software quality - Wikipedia

Software engineering is the application of engineering to the development of software in a systematic method. Definitions Notable definitions of software engineering include:
