Business models are perhaps the most discussed and least understood aspect of the web. There is so much talk about how the web changes traditional business models.

### **Business Models on the Web | Professor Michael Rappa**

Software quality according to Feigenbaum. Quality is a customer determination, not an engineer's determination, not a marketing determination, nor a general management determination.

### **Software quality - Wikipedia**

Software engineering is the application of engineering to the development of software in a systematic method. Definitions Notable definitions of software engineering include:
